- Faucet hole: **No**
- Drain position: **Centred**
- Drain cover: **Colour-matched ceramic**
- Material: **Ceramic**
- Standard finish: **Glossy white**

CERTIFICATIONS

Production managed by a quality control system in line with ISO 9001:2015 principles. For additional approvals and project documentation, contact the DIFANNI specification team.

MATERIAL CHARACTERISTICS

CERAMIC BODY

Produced in-house in Chaozhou; kiln-fired and individually inspected. The glazed ceramic surface is smooth, durable and low-maintenance for everyday bathroom use.

FORM & FUNCTION

Gently curved rectangular vessel basin with subtly bowed long edges and compact corner transitions. The internal walls are relatively upright, meeting a broad, gently sloped basin floor with rounded transitions. The outer body tapers slightly toward the base for a balanced architectural profile.

STANDARD FINISH

Glossy white ceramic as standard. Custom ceramic colours are available on request, subject to MOQ and production feasibility.

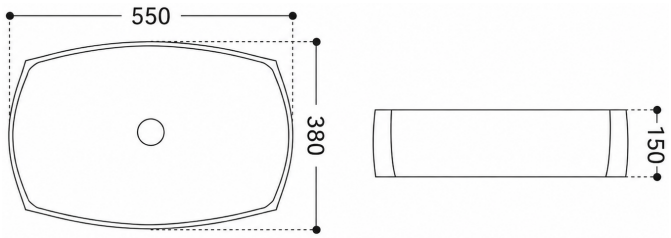

INDICATIONS FOR CLEANING

Clean only with a soft microfibre cloth and soapy water, then dry with a dry cloth. Do not use abrasive sponges, solvents or strong alkaline cleaners, as these may damage the glazed surface.

ACCESSORIES & OEM / ODM

Tap and waste set sold separately. DIFANNI welcomes OEM / ODM partnerships for distributors, hotel groups and design practices, with customisation of ceramic colour, branding and packaging for project-scale orders. Contact our specification team for samples, drawings (PDF / DWG) and pricing.

TECHNICAL DRAWING

All dimensions in millimetres (mm). Drawing not to scale for print.
