MATERIAL CHARACTERISTICS

HIGH-FIRED CERAMIC

High-fired glazed ceramic basin and matching lower shelf. The smooth, dense surface is easy to clean and suited to everyday bathroom use.

FORM & FUNCTION

An elongated basin with narrow side rims, a flat rear faucet deck and gently curved internal corners. The slender open frame and ceramic shelf create a light architectural silhouette.

STANDARD FINISH

Glossy white basin and shelf with a black metal frame as standard. Custom ceramic colours are available on request, subject to MOQ and production feasibility.

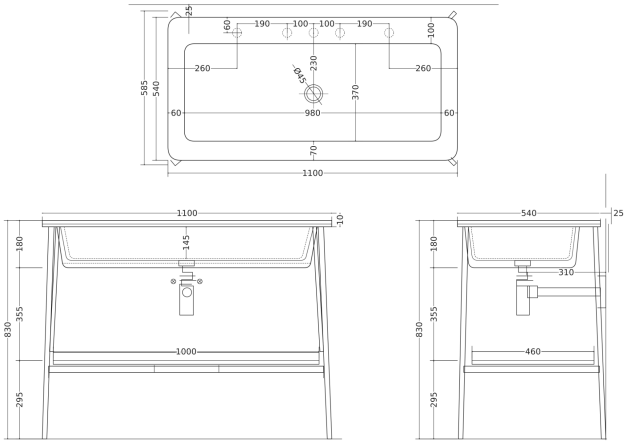

INDICATIONS FOR CLEANING

Clean with a soft microfibre cloth and mild soapy water, then dry. Avoid abrasive sponges, solvents and strong alkaline cleaners. Wipe the metal frame dry after cleaning.

ACCESSORIES & OEM / ODM

Tap and waste fittings are specified separately; a ceramic waste cover is shown in the product image. OEM / ODM options include ceramic colour, branding and packaging. Contact DIFANNI for samples, PDF / DWG drawings and pricing.

TECHNICAL DRAWING

All dimensions in millimetres (mm). Drawing not to scale for print.
